

EterniTrace

## Collaborative traceability of goods

**Walhain, Belgium**Early stage company established in **2017**

### Teaser of the company

Eternitrace develops a global inter-operable collaborative supply-chain tool supported by the blockchain technology. The tool allows their customers to trace between companies (1) manufacturing processes (2) shipping operations and (3) inter-company documentation.

Antwerp, Belgium

### Blockchers Use Case Scenario

**Comunitaria will implement the following use case scenario**

#### End User SME

LUXURY TRACEABILITY : THE EXPORT OF HIGH-END BELGIAN CHOCOLATE.

Chocolate is a national treasure in Belgium.

We are combining a mobile/web application, blockchain and IoT sensors to follow luxury premium Belgian chocolate export from the manufacturer in Belgium to the final customer in America.

Strict shipping conditions must be observed during the transport in order to assure that the chocolate will reach the final customer unmelted, preserving its best quality and taste.

Thus, keeping Belgium's reputation for making the best chocolate in the world !

### Team making Eternitrace great

**Daniel Penninck**  
COO**Sebastien Pirllet**  
Sales**Steve Degosserie**  
CTO
