

# Orvium

The Orvium logo consists of a blue, stylized atomic or molecular structure icon followed by the word "Orvium" in a bold, blue, sans-serif font.

Connecting researchers and publishers with trusted reviewers to accelerate publishing with incentivized peer review

**Vitoria, Spain**

Seed company established in **2018**

## Teaser of the company

Scientific publishing platform that helps researchers to publish their work.

Orvium works to eliminate market inefficiencies and improve the quality and effectiveness of scientific publishing.

The ultimate objective is for Orvium to be the leading publication platform for the research community while returning the benefits of science to the society.

**iKUSTEC**

VISION SYSTEMS LAB

## Blockchers Use Case Scenario

**Orvium will implement the following use case scenario**

### End User SME

Today, Orvium offers a scientific repository with decentralized peer review process for authors and reviewers enabling copyright control, full traceability and recognition for stakeholders using DLT.

Working along with Ikustec we'll build a SaaS platform for OA journals enabling: minimal operational costs, decentralized management, collaborative platform, traceable life-cycle, brand recognition as a center of innovation, and access to content in their field and talent

**Notes:**

## Team making Orvium great
